Dear Colby:

Just a word of thanks for the successful completion of the lighting retrofit project. Your team's efforts were professional and dedicated to making the implementation process as "pain free" as possible. I am happy to state that I believe they have attained their goal. Chandler Evans' employees are very happy with the results while the division is already enjoying the cost savings benefits projected in your proposal. Your professionalism in completing this project is sincerely appreciated.

Thanks again.

Sincerely,
