FAA REPAIR STATION USPR732K

Mr. Andrew Bloom
ESCO
788 South Street
Pittsfield, MA 01201

Dear Andrew:

I would like to express our gratitude on the lighting project managed by you and your competent staff.

As the project moved forward to its completion, there was no disruption to any work areas. Within a job shop environment, time is money. We appreciated the flexibility in your schedule to work around areas of production so not to cause us any delays in service or downtime.

Just as important is the high quality of lighting we have throughout the facility. We have improved our product quality by increasing the brightness and color rendering.

A drop in energy consumption was noticed. We are working with Northeast Utilities to further reduce cost by ratcheting down our demand charge.

Feel free to use us as a reference if needed.

Sincerely,

Fran Walenta
Plant Manager
